Children's University Tasmania Workshop

We asked for your experiences and opinions on being in Children's University, and these are the things you told us...

I love School

My Fav
 Hobby is
 dancing
 Swimming

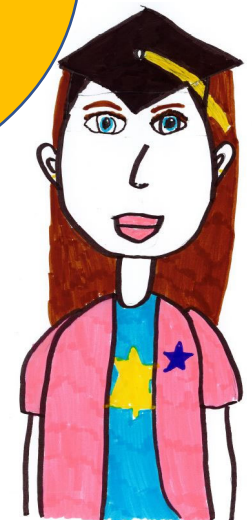

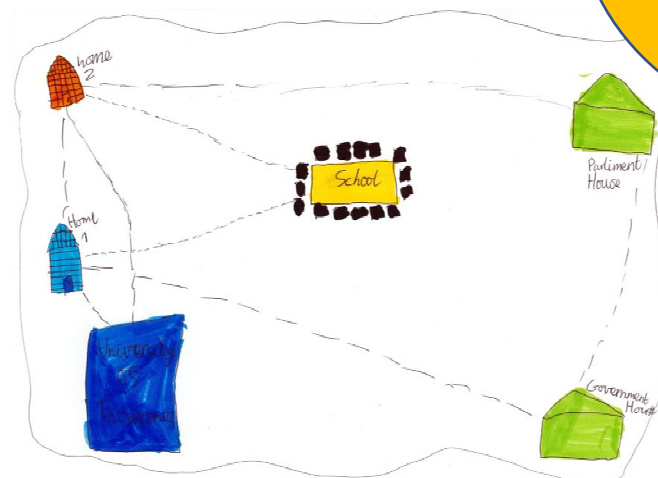

We have been doing cu for 1 year now I love it! but the food when we do Graduation should be separate food for the 2-3 the 4-5 then the 6 can have their own table because it is there.

I ~~have~~ haven't been in Childrens University for long but I think you should join because you can go on Excursions With mes d at School I did some fun activities at home. I joined because my friend were in it and it looked like fun and I think you would like it thank you for reading this. ❤️❤️

I have loved doing childrens uni alot. I love the fun activities that you can do. Because of childrens-uni i have made bookmarks boats and even ~~learned~~ learned some Azlan.

Most of you said: "We like doing the activities!"

What you like about Children's Uni

Learning new things
Learning different things to school; learning things by doing them.

Activities
Online activities; activity packs; making things; excursions; sports

Going places
Getting out and seeing things we wouldn't otherwise; doing things with family

I have been enjoying this year of childrens university a lot there have been a lot of enjoyable activities in childrens university and some of the activities are very educational like Azlan witch we learn in one of our activities another one of our activities was quite handy because we made bookmarks witch made reading much more easier

I think we should spend more ~~time~~ money on the food and less on the graduation gifts.

The open day is awesome. I love learning about different seeds of study and trying all the new video games. I also enjoyed the excursions were we learned about marine life.

Graduation
Robes, hats and tassels; walking through the streets; free food; (hope to be able to do grads next year!)

Just because were children doesnt mean were unsophisticated, and not all of us enjoy meat pies and cookies.

it very enjoyable. All activities I've done have been awesome and find it quite unfortunate that Covid 19 prevented me from doing more of these activities. The graduations are my favourite part of it all.

Your suggestions for making Children's Uni better

Better and more food at graduations

More excursions

Thank you for your feedback! from Becky and Megan
